SUMMARY

Highly motivated Full Stack Developer with strong attention to detail and experience in web development, design, and application security. Skilled in self-managing and planning client projects to deliver high-quality solutions on time. Proficient in front-end and back-end technologies, with a proven ability to create secure, user-friendly applications. Committed to continuous learning and teamwork, eager to bring technical expertise and problem-solving skills to a dynamic development team.

EXPERIENCE

Junior Full Stack Developer

07/2022 - Present

Webcolify ↗

- Developed scalable and secure E-commerce platforms for businesses in the cut & edge industry, with online configurator, material cut optimization, and user-friendly interface.
- Developed an admin panel to control all aspects of the platform, including inventory management, order management, and payment processing.
- Managed AWS services and deployment on the cloud.
- Designed websites with a focus on user experience and responsiveness.

EDUCATION

Automatic Control and Applied Informatics

2020 - Present

Faculty of Automatic Control and Computer Engineering Iasi - Bachelor's Degree

- Achieved third place in the IT Marathon National Contest 2024 within the Web Development category, organized by the Romanian Foreign Intelligence Service. During the competition, I developed a cryptocurrency exchange platform in 12 hours and was recognized for the security of my application.
- I participated in the NXP Cup 2024, successfully advancing through the national qualifications to represent my university in the international finals. In this competition, my team and I built and programmed an autonomous vehicle to race on a designated track, outperforming more than 30 student teams during the national stage.
